INVOCATION

May the Light in me be the light before me
May I learn to see it in all.

May the sound I utter reveal the light in me
May I listen to it while others speak.

May the silence in and around me present itself,
The silence which we break every moment,
May it fill the darkness of noise we do
And convert it into the Light of our background.

Let virtue be the strength of my intelligence,
Let realisation be my attainment,
Let my purpose shape into the purpose of our earth,
Let my plan be an epitome of the Divine Plan.

May we speak the silence without breaking it.
May we live in the awareness of the background.
May we transact light in terms of joy.
May we be worthy to find place in the Eternal Kingdom OM.

Master E.K.

PRAYER FOR THE YEAR

All names together utter the name of God.

A prophecy thinks from darkness to light.

Prophecy is fulfilled.

II

MESSAGE OF THE MONTH OF GEMINI

The third sun sign of the zodiac is relatable to the third root-race and the third PITRIC centre in the human body, VISUDHI, the throat centre. The one becomes two in Gemini. The male-female man becomes male and female, positive and negative, distributive and receptive, right and left, divine and diabolic, spirit and matter, knowledge and ignorance, light and darkness, evolution and involution, right and wrong, broad and narrow, higher and lower, etc. Without Gemini there is no creation. Without two opposing currents nothing manifests. Without South Pole there is no North Pole. Without earth there is no heaven. The duality exists by opposition. Without such opposition they do not exist. Trying to annihilate one in favour of the other is ignorance.

The students of knowledge hate ignorance. The disciples hate indiscipline. The superiors look-down upon inferiors. As long as there is the rejection of the opposite, the opposite gains strength and stands by itself. The creation itself is balanced by the continuous and equal opposition between the divine and the diabolic as per the PURANAS. The yogis are in the golden middle path and are at the neutral state. Hence, to them there is no opposition from either sides. The Lord too descends to neutralise the imbalances as between the divine and diabolic but not to annihilate the one in favour of the other.

The creation is a swing where sometimes the divine and sometimes the diabolics gain marginal superiority. This is according to the law of alternations. The earth also swings from left to right and right to left causing summer and winter solstices while the equinox is the principle of balance. To transcend from the swing to equinox is the key which represents the golden middle path. Yoga is thus the golden middle path that neutralises the left and right energies in the yoga student.

Gemini gives the message that one needs to walk through left and right pillars (Castor and Pollux) to enter into the temple. Lord Krishna recommends to Arjuna to become a yogi for this reason. Let the entry into Gemini be through the golden middle principle.

MESSAGE OF THE TEACHER

LOVE THE WAY

None can compel the Lord, for He is obliged to none. He obliges Himself, where there is a pure heart that emits love, devotion and self-attunement. It is amazing the way these blessed ones gain the favours of the Lord. The Lord is not pleased so much by a disciple's ability as He is pleased by love, devotion and self-attunement. The longing for the Lord develops an immense love for the Lord by which the Lord is attracted through the Law of Magnetism. The true disciple realises the Presence in and around him and therefore lives, moves and rejoices his being in Him. Great seers like NARADA, HANUMAN, GOPIS found the way to the Lord through this immense love. The love of the Lord seems to bind Him in the best way. Man better learns God-loving nature than anything else.

GÎTÂ-UPANISHAD
- LORD SRI KRISHNA -
BEING AND DOING

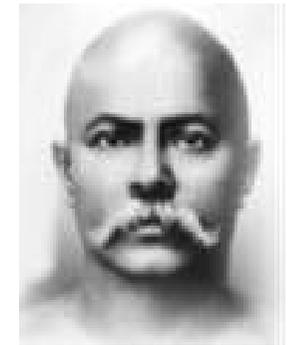

Man believes that he is the doer. The more he does the more he breeds pride and becomes egoistic and self-conscious. He gradually develops a self-centred pride. He concretises his intellect and grows rigid as he believes himself to be the doer. All acts are stimulated from Nature. The Nature in man stimulates each man according to the blend of his qualities of poise, dynamism and inertia. The qualities emerge from Nature and their blend causes action in a triple way that is divine, diabolic and human. Man, as per the blend of the qualities that he carries has the blend of the divine, diabolic and human activity. Man is born from these qualities. But the qualities themselves are born from the Nature. Thus the Nature is the president of all qualities while the three qualities function as Her three lieutenants.

The Nature is inert by itself without the Presence. The Presence activates the Nature and makes it conscious. From its consciousness the qualities emerge. Thus the Presence is the unseen president while the Nature is the seen president. Different electric equipments function differently due to the quality of their composition when electricity is present in them. If electricity is not there electric instrument remains inert. Likewise, the man's presence lends support to his qualities. If he orients his presence to the Divine, who is beyond qualities, his personal qualities are also at rest. But if he is present through the qualities, the qualities act and bind him.

The real doers therefore are the qualities but not the man himself. Electricity is not giving cool breeze It is the air-conditioner. Electricity is also not conducting the television nor does it cool the things in the refrigerator. Its presence causes these equipments to function. The functioning belongs to the equipments. Likewise all functioning belongs to the human equipment consisting of three qualities, five elements, five organs of action, five sense organs, five sensations, five pulsations, etc.

MESSAGE OF MASTER CVV
SATYA YOGA

Persons with worldly name, fame, position and property do not find my path of yoga comfortable. Those who grow excessively into the world are generally distant to the Truth. The reason being that, untruth prevails in the world than the truth. The yoga that I profound is Satya yoga. It demands truthfulness at mental, vocal and physical levels. If you have gained anything in the world through untruth you better not invoke Me. The fire of the truth relating to my yoga will burn up your worldly gains just as a flame burns up camphor. I let only truth prevail. I do not let much untruth around you, for it hinders your progress as a Soul. Look for the splendour of the Soul and not so much for the splendour of the world. If it comes in the truthful way let it be so. Remember that every yoga promotes only truth and does not let untruth coexist.

cont. from p. 7

The doer is the equipment, the dweller is not. The dweller is the being. His quality is to be. The doer is the equipment. That is why one is called a human being but not a human doing.

Electricity has no identity with any equipment. Its identity is by itself. Likewise, the being in human equipment cannot identify himself with the human instrument. You are not your equipment. You are a Being, eternal and unqualitative.

LORD MAITREYA THE HUMAN RIDDLE

Fortify the thought plane with qualitative thoughts. You are thus protected by a strong fort. The five elements in you shine forth as per the quality of your thought. If thought quality weakens the fort weakens. It develops cleavages. It becomes easy for the undesirable ones to enter into the fort of your body. Once undesirable energies enter into you the health is disturbed. You get dispirited and disappointed. Gradually you lead yourself into self-pity. The three together lead you to death.

Let not INDRA, the Lord of good thoughts, become qualitatively weak. As per PURANAS whenever INDRA was qualitatively weak the ASURAS (diabolics) entered his kingdom of heaven and vanquished him. Your defeat depends upon the quality of your thought. INDRA is the Lord of the celestials. He is the king of the creation. He protects. This he does by the quality of his thoughts. You too can uplift yourself or cause downfall to yourself as per the quality of your thought.

If today on the planet there are floods on one side and drought on the other side and if there are incurable and horrible sicknesses and never ending conflicts between religions and nations, it is due to the quality of human thought. Even goodwill groups are seldom engaged in thoughts of goodwill. They are at conflict with other groups and many times even with the members of the same group. When humans regularly produce conflicts through their thoughts how can they aspire harmony for humanity? From the hierarchical standpoint we see how foolish humanity is. They regularly destroy that which they aspire to establish. An average human has much conflict in himself and his thoughts emit energies of conflict. Harmony therefore remains a mirage. This is the human riddle.

MASTER MORYA - MARUVU MAHARSHI - THE STRENGTH OF COLLECTIVITY

Each man builds his own world within the world according to his thoughts and desires. There are innumerable worlds within the world. Each one is busy in his own world. The world of the other does not exist to him. So is the case with the other too. You have your own world while your neighbour has his own world. Many times within a family each one has his own world, which is unconnected with that of the other. The members of the family are no doubt under one roof but have different worlds. Such is today's paradox. The age of KALI thus circumscribes and separates an individual from the other. Each one grows individualistic and loses collectivity. The strength is in collectivity and the weakness is in loneliness. An average occidental today suffers from this loneliness and is unable to step out and get into collective existence. Seeing the danger of the excessive separativity to the point of sickness, groups are contemplated by us. Learn to fit into a group than to be proud of being individualistic. If you do not choose so, you are in peril. You will perish.

MASTER KOOT HOOMI
- DEVAPI MAHARSHI -
FEAR AND ITS ANTIDOTE

Fear is a hindrance on the Path. The fearful ones cannot progress. The little progress that they accomplish is also unavailable when needed if fear hovers around him. Fear causes contraction of heart. Fear also causes congestion in the lungs. The respiration does not happen as it should to a victim of fear. Inadequate respiration increases fear further and the person starts gasping for breath. Consequently, one would be led to the fear of death. Thus, fear is really frightening.

Fear indicates lack of confidence, belief or faith in the divine or in the teacher or in oneself. The confidence in belief or faith or teacher enables unfoldment of the heart. Such unfoldment dispels fear. It happens simultaneously. Thus faith or belief is the antidote to fear. I therefore strongly recommend that you conduct prayers in the heart to keep distance from fear and its co-borns: suspicion, prejudice, hatred, peevishness, illusion and pride.

MESSAGE OF MASTER E.K.
LAW THE WAY

The Lord of Hosts, the indweller of the universe, the God in creation takes to human form with all the intelligences and powers of Nature. The humans are given form. The Lord descends into the form. The humans can reach the Lord gradually abiding to the laws of universe. The Law is the way for the Lord to descend and for the human to ascend.

VIDURA WISDOM TEACHINGS

The wise one
lives not on others' admiration.
He lives to accomplish
acts of goodwill,
while admiration may follow him
as a shade.

SHIRDI SAI SAYINGS TRANSMISSION

The Lord is with and without form. The egoist fancies of the Lord without form, while the humble reveres the Lord with form.

For the former the Lord is not communicable, while for the latter, the Lord becomes communicable, for communication through form is easier than without form.

Blessed are the humble ones who bend before the Lord in form, for their ego enables transmission of Light transcendent!

SRI RAMAKRISHNA

KNOW THE ONE

Man is born in this world with two tendencies - Vidya, the tendency to pursue the path of liberation, and Avidya, the leaning towards worldliness and bondage. At his birth, both these are, as it were, in equilibrium like the two scales of a balance. The world soon places its enjoyments and pleasures in one scale and the Spirit its attractions in the other. If the mind chooses the world, the scale of Avidya becomes heavy, and man gravitates towards the earth; but if it chooses the Spirit, the scale of Vidya becomes heavier and pulls him towards God.

Know the One, and you will know the all. Ciphers placed after the figure 1 get the value of hundreds and of thousands, but they become valueless if you wipe out that figure. The many ciphers have value only because of the One. First the One and then the many. First God, and then the Jivas and the Jagat (creatures and the world).

First gain God, and then gain wealth; but do not try to do the contrary. If, after acquiring spirituality, you lead a worldly life, you will never lose your peace of mind.

CHILDREN'S SECTION

THE DOCTRINE OF ETHICS

Mate not on auspicious days.
Depend not on
the king's grace.
Foster not the spouse's pride.
Live not at an unholy place.

CHILDREN'S SECTION

THE RIGHT USE OF FOOD

Tobacco and Alcohol

There are people who swallow cigarette smoke! What for? For energy? No. For nothing? No. They say - for pleasure. But poor fellows, they do not know that it comes back as displeasure after a while. They are spoiling their respiratory system for pleasure! What wisdom!

There are people who indiscreetly and excessively drink alcohol. They too are spoiling much within their body. Chewing tobacco, drinking alcohol for pleasure is like pouring sea water into a gasoline tank of a motor vehicle. The destruction is for sure.

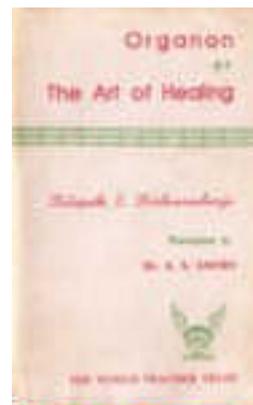

There are foods that energise the body. One should consume only these. Only then is one sensible. Insensible are they who do not care for energising the body. One should know what food energises his system and what food does not. He should not compromise to eat that which is not suitable to him.

Generally, tobacco and alcohol are not suitable to human body. They affect the brain, the respiratory system and the digestive system. Coffee and other stimulants are also not recommended. Instead, they can be substituted by milk, water and fruit juices.

THE WHITE LOTUS

The Lotus is a profound Vedic symbol that enchants the student of symbolism. The booklet is a spontaneous talk flowing through the author. The White Lotus can give us so many messages, if only we keep looking at it, even if it is only a picture. A lotus lives in all the three worlds. It has its roots in the earth, its stalk in the waters, and the flower above the waters just like the human being. We are also living in the world of matter, force and consciousness. So, we are like a lotus, but with a difference. The lotus is neck deep in waters, but it still shows its beauty to others. If we are neck deep in trouble, can we show up that which is like a lotus in us? It is almost impossible.

EXTRACTS FROM THE TEACHINGS THE HIGHER ASPECT OF LIBRA, Part IX

Dr. Sri K. Parvathi Kumar

Peñíscola Group Living, Spain, June 2003

This energy which is now entering into the system should enable the human consciousness to gain loving understanding. The education will develop better human relations. That is the very original purpose of education to have better human relations, but not discord between groups, between nations and between races. Today there is discord, but the nature of energy has come to synthesize through right comprehension. It enables promotion of natural laws. If you take up anything of spiritual value today and work it out, the natural cooperation will be very much there. Unfortunately we look for social cooperation. Don't look for social cooperation initially. Believe in natural cooperation and carry out a pioneering work. If you can carry out pioneering work of significance, you are one of the builders of the future humanity. That is how you should think ahead. First receive the energy, comprehend yourself, think ahead and manifest plans locally. That is why I say, "Think globally, act locally!" Man wants to act globally which is not initially possible. If you start somewhere in a simple manner, the depth of the quality of work that you do will find its expression and expansion.

In "Spiritual Astrology" it is said: "If you are strong with your Saturnian energy, it would lead you to Jupiterian expansion." These are the two counterparts of one principle. All initiates acted locally, but have become global. What is the area Jesus covered? What is the area Moses covered? What area Pythagoras covered? What area Sai Baba covers? What is their secret? The depth of the quality of the energy that they manifest makes it global. Man's thinking is so superficial that he would like to be straight away global. See a banyan tree. It spreads enormously. There is no other tree compared in its spreading. It is its depth that makes it spread. It is locally planted and is growing global.

That is the reason why Master Djwhal Khul also gives the statement:

"Out of small duties properly performed will emerge larger responsibilities culminating in global service."

There are steps for growth. The deeper you grow into your consciousness, the larger you grow. If you are not deep enough, but you are only spreading, your spread is superficial.

It was told to Alexander by an initiate from Punjab, India: "What for are you spreading? You spread to lose. If you make one foot forward and then make a second foot forward, you have already lost the previous foot. How

much land you cover! But what do you carry with you, when you depart? Don't be foolish! This aggression and occupation show the magnitude of your ignorance, and it keeps you restless all the time. Instead gain the inner kingdom! You are guided by a spiritual Master. Ask him to guide you more into your own being than into the outer world. Be a king of your own inner kingdom, and don't try to crazily occupy others' land. It does not help. You have to return with empty hands ultimately." An initiate was bold enough to tell him like this. Alexander met such initiates very frequently, when he entered into the frontiers of ancient India. That caused him enough realisation to return.

When you understand the natural laws, you will give more importance to the inner growth than to the outer growth. When once you are attuned to natural laws, your comprehension is better. You would not be prohibitive in your attitude, exclusive in your attitude. You are more inclusive and more liberal in your attitude towards others. That is why the new age does not think in terms of punishments. Instead it thinks of extending a helping hand to elevate people who are suffering from ignorance. Punitive attitude is human weakness.

See the life of Jesus which you know so thoroughly. He was not punitive, and he laughed at the law and at the law court. He smiled at the general Pilatus. That was education to the general. He smiled and revealed much education to him. That smile informed Pilatus: "Your law is no law. Your justice and judgement is no judgement. It is the ignorant judging the ignorant. You never understand the law, when you impose a law of ignorance, and when you are guided by the general opinion of the society." In his inner conscience Pilatus knew that Jesus was not wrong, but he himself was a victim of circumstances. His emperor in Rome has appointed him to the region of Israel, Jerusalem, and it was his duty to ensure law and order in the community. Certain selfish forces caused disturbance to the law and order and successfully put the guilt on Jesus. It was all manipulative, because they saw in Jesus the one who breaks tradition. He broke certain superstitions, religious laws, and he did not respect the blind following of Sabbath. He did many such things, and he tried to clean the temple of Jerusalem in which there was enormous commercial activity. The ordinary people were happy about him, but the people of money and power were not happy. Frequently he was challenging them with the natural law.

So, they have all contrived, connived, fabricated and presented a case against him to the Roman general. When the Roman general looked into the eyes of Jesus and when Jesus responded by the look along with a smile, Pilatus' conscience was deeply touched. He felt this is the man whom the Jews were expecting. Jesus was growing excessively popular, and then the normal social powerful lobby started working against him. Jesus challenged the social power with the power of love and the power of knowledge. He was not vio-

THE SCROUGE OF CANCER

lent. He was strong in his wisdom and presented such wisdom, and that caused insecurity for the powerful lobby of the society. Pilatus felt it. The man who is put to judgement has no culpability. So, he postponed the judgement, and even for the second sitting he did not find any guilt with him, but then there was such a commotion and demand, and there was a request during the sacred days of Passover, that the people would prefer Barrabas to be released and Jesus be crucified. Jesus smiled. He was so Aquarian.

All initiates they see centuries ahead, and they warn the human consciousness of things to come, but still people continue to be slaves of money and power. The incoming energy is such a downpour that there will be less and less punishments arising out of greater and greater comprehension. Punishing human weakness is crude. You know, the majority of human beings are not wicked. They are weak. A very small section of humanity is wicked, and a major portion of humanity is weak, and a very small portion of the humanity is wise. So, wicked, weak, wise! The wicked capture the weak faster than the wise. The wicked go to the extent of putting the point of the revolver at your temple and demand. The wise cannot do it. The wise inform. The wicked influence. The wise express. The wicked impress, cause missionary work, militancy, terrorism, bloodshed and capture the humans. That is why the means of the wicked are considered stronger

than the means of the wise. But then there is the law of nature which works out the contrary for the wicked and comes up to them like a tidal wave, like a tornado, like a typhoon, like a cyclone and hits hard, because also the wicked are subservient to time.

In the meanwhile the wise prepare seeds, so that when time comes they can once again sow the right seeds after the tornado, after the cyclone. Is this not the story of Noah? He collected all the right seeds relating to all kingdoms, preserved them, saved them through time and then sowed them, when the right time came. That is how you have to visualise the work of the Hierarchy. They are preparing the seeds for the future. The present will meet its own crises, but the seeds that are saved through crises inaugurate the new era.

This comprehension we should have relating to the plan of Hierarchy. That is why the wise are not engaged in fighting with the wicked. The wicked will face their destiny through their own actions. In the meanwhile let us secure the right seeds for the future generations. That is the vision of the Hierarchy is, a vision that spreads over centuries, up to 21 centuries. That is how they see and then they sow.

to be continued

Cancer is one of the most dreaded diseases and is the main preoccupation of the medical research. It would be helpful to know the psychological causes behind this disease.

Cancer is a legacy coming from the Atlantean humanity. The scourge of this disease devastated the Atlanteans. The roots of the disease are deep seated in the emotional desire nature and are grounded in the desire body of humanity at large.

Cancer is basically a disease of inhibition and suppression of desires and emotions. The emotions of people are also strongly interlaced with sex, which was excessively suppressed through the moralistic doctrines of variety of religions. This caused suffering through suppression. While over-expression of sex leads to syphilis, suppression leads to cancer.

It is about time that man realizes that he cannot excessively suppress or excessively express any desire or emotion. Moderation and intelligent regulation of any desire is the key to health. Strong desires have their counterpart as strong aversions. One is the positive swing of emotion while the other is the negative swing of emotion. Both are extremes causing impact on the human mechanism.

Cancer has been sustained through generations and is well grounded even in the soil on which we live. Least we understand that the germs of cancer infect the vegetable kingdom, and through the vegetable kingdom it infects the human family. It is also believed that in a similar fashion, syphilis infects through the mineral kingdom.

The above require consideration; and also for the above reason, cure is found difficult. This editorial is intended to provoke thought among those who dedicate their life to reconstitute health to humanity. More will be spoken on cancer in the coming editorial, from the esoteric standpoint.

GREAT INVOCATION

Let us form the Circle of Good Will.

OMNIA VINCIT AMOS

From the South through Love
which is pure.

From the West through Wisdom
which is true.

From the East through Will
which is noble.

From the North through Silence
which is golden.

May the Light make beautiful
our lives.

O Hierophant of our Rite
Let his love shine.

OMNIA VINCIT AMOS

Let us form the Circle of the World Servers

We bow down in homage
and adoration

To the Glorious and Mighty Hierarchy,
The Inner Government of The World,
and to its Exquisite Jewel,
The Star of the Sea -
The World Mother.

From the point of Light
within the Mind of God
let Light stream forth
into the minds of men.

Let light descend on Earth.

From the point of Love
within the Heart of God
let love stream forth
into the hearts of men.

May Christ return to Earth.

From the centre where the
Will of God is known

let purpose guide the little wills of men,
the purpose, which the Masters
know and serve.

From the centre which we call
The race of men

Let the Plan of Love and Light
work out

And may it seal the door
where evil dwells.

From the Avatar of Synthesis
Who is to come

let His energy pour down
in all kingdoms.

May He lift up the Earth to the
Kings of Beauty.

The Sons of Men are one
and I am one with them.

I seek to love, not hate.

I seek to serve and not exact
due service.

I seek to heal, not hurt.

Let pain bring due reward
of light and love.

Let the soul control the outer form
and life and all events,
and bring to light the love
which underlies the happenings
of the time.

Let vision come and insight.

Let the future stand revealed.

Let inner union demonstrate
and outer cleavages be gone.

Let love prevail.

Let all men love.

Master D.K.

OM is the King.

Uttering OM, regain your kingdom.

Be a king and move in the King's Way.

The King's Way in you is the Path of Breath.

That is, from the nostrils to the Brow Centre,
from the Brow Centre to the windpipe, to the lungs.

Move consciously in the King's Way

and regain the throne which is located in your heart.

The movement in the King's Way is not possible
unless the way is clean and clear.

Keep therefore the respiratory organs clean,
and walk through the Path experiencing OM.

May you proceed to experience yourself as OM, the King.
