

Invocation for United Europe

For the European groups

We the citizens of Europe strive to stand united.

We endeavour to unite the east and the west in us and in Europe.

We aspire to stand in the fusion of the east and west of Europe
and provide a field for fusion for easterners and westerners of Europe.

May we fulfil the Hierarchical plan of discipleship
standing in the Light, Love, Power
and Synthesis of Hierarchical energy.

Visualise blue light within yourself, in your home; spread it to the entire town, the region,
the country, Europe and at the end over the entire globe.
A good day for the invocation is Sunday.
