*Dear aspirants,*

THE present decades are packed with the spirit of man which can expand and shed its light into the centuries to come. Now it is time for the evolved man to be prepared to serve as the beam of light that synthesizes his equipment into his contribution. Scientific, theological, political and social understanding is to be filtered away from the contradicting

lines of thought and arranged in terms of creative thought and constructive plan. Work should transcend undesirability. To this end your values should be beyond limitation of time, clime and rationality. Values of personal requirement should be re-arranged in the light of the sense of security by a proper understanding of fitness. Adjustment should replace competition, goodness should replace greatness and love should replace the glamour to possess.

A socio-economic basis for spiritual living should be the practical approach to you all. I have trained you along the above lines. I am happy you begin to respond. I wish you be the seeds of the above light to smile into the future.

- Master E.K.

TO equip oneself with the basic needs up to the degree of self-sufficiency is the first requisite of a true spiritual server and this forms the main item of my message to you all. As long as you need the support of others up to the degree of dependency, you cannot claim to face the personal needs which you have either to ignore or resort to "other activities." This is a serious disqualification of a server. Discarding personal needs amounts to a gross neglect of duty to

oneself by following which you can never claim mastery over your duty towards others. It is a matter of experience and observation that the human psychological mechanism, equipped with the physical engine can be handled in such a way that it creates its own work which can be exchanged with the personal needs without making it commercialised. Let the Yogi of my disciples not be ashamed of being called an employee or a businessman. It is wrong to understand that mundane needs and money are disgraceful things. Grace or disgrace that sheds its light upon the money you earn and the basic needs you demand, depends upon you and not the money. Bear this in mind and work out the basic needs with least effort and within the minimum period of time when you are ready to serve the

humanity around you without being a burden to anyone. If you can put up with your mundane co-worker either in business or employment with greater ease, you will be able to put up with the humanity at large. Test your powers of tuning with others in your own family, office or business firm. Then be sure of your spirit of universal brotherhood. I wish to meet you all with a smile of perfection during the course of this year. Unto that end I bless you all. Let us walk in one Soul to Work out the spiritual fusion of the East and the West.

THE story of the birth of the Lord is the story of the rebirth of man into the kingdom of the Lord. The soul consciousness of man which is untouched by the activity of the mind and senses is the phantom of the son of man from which one should be raised into the One Consciousness of the Lord. The flesh and blood which forms the physical body is to be crucified on the cross of life with its incidents as nails that tag down man to the body. Through this

great initiation which is called crucifixion, man is raised into the kingdom of liberation which transforms the traits of the flesh and blood into His flesh and His blood which forms the bread of man in the shape of service. We find this drama of initiation enacted every year at the midnight of 22nd December when the Sun passes on to the sign of Capricorn as the son of the sign Virgo, the Virgin that rises at the Eastern Horizon. Every soul has his own day of this initiation when the Lord comes down to the earth into his physical body to walk with man on earth and to lay the Law. The Law speaks for Him : *'I am the way.'* Let us all pave the way to receive the Lord 'I AM' at the moment of His birth when the clock strikes twelve in the midnight of 22nd December.

## CHRISTMAS MESSAGE

22-12-1977

MY hearty blessings to all of you on the eve of X-mas. May the Lord Christ bless His sheep, and shower His blessings so that there my be no sheep that escapes His rod. May all the sheep be tended to the One Vineyard. The Light dawns before the inauguration of every morning of God, which coincides with the morning of 22nd December every year, to the children of mortality.

The years of trial and tribulation purify the minds so that the minds merge in their hearts to unite with the true heart of humanity, which is with our Lord Maitreya. Let the sacrifice of personal interest be the crucifixion on the altar of public interests in an international scale in the place of our earth upon which all the physical heads bend on the Day of Judgement and that is Golgotha. *"I come down to earth to redeem you all"* is the promise of the Lord, which stands for ever. May you vindicate His promise. *"I return to My Father in Heaven once again"* is the one warning given by the Son of God to sons of men. May you return along with Him to the Eternal Kingdom through the way shown by Him, who treads. May his footsteps show the path to you all. I stand here to guide

you on the path until you are safe. This I do against misunderstanding, lack of faith and personal independence. I learn to reciprocate the sweet grapes from His Vineyard to what all you give to me in the shape of your behaviour once pleasant and then unpleasant. May you live long with sound health of body and mind, to make your life His prayer. May the Light dawn upon you ever and for ever. May the Star shine upon your heads and lead you on and on until you are the Path itself.

### MASTER C. V. V. BIRTHDAY

---

4-8-1978

THE Masters of Wisdom are those perfected beings who have grown beyond the limitations of mankind. A thought about them bestows us their presence. Master C.V.V. has promised His presence to all those who invoke His name and offer their services to mankind. Yoga, the science of man, is once again presented to us by Him in the form to mould His service as the training ground. The limitations of human consciousness are successfully lifted by Him whenever

His name is invoked. The three letters C.V.V. will produce life currents that clear the path and lead us to perfection. He has chalked out the way through which the human consciousness expands and permeates into the planetary consciousness of this earth and the Solar consciousness of our system. Then it finds the method of tuning itself with the Cosmic Consciousness. Anyone can live in this consciousness along with his physical body and other vehicles. Invoke His name and offer yourself up to the service of mankind in His name. Forget about yourself and your needs find their fulfilment. Your experience finds its culmination in Him and you will survive sailing on the surface of the ocean of eternal existence. May the return of His birthday bring many returns to you on to the return of Christ Himself..

11-8-1978

EXPERIENCE is the harvest that is being reaped by everyone from birthday to birthday. There are people who do not yet begin to live to their own harvest. They fail to reap and miss their lot of the year. Time is a fertile field, which awaits cultivation of work and the sowing of the seeds of your good deeds. Once you sow, it begins to grow and yields the fruit. Take heed of the quality of the seed and be sure of the taste of the fruit. Take care

of the fertility of the soil. Manure it with your sense of economy and you can be sure of a considerable increase of the return. Fill the time with work, it keeps you busy with the fruit. Protect the work by not allowing the weed of any wasteful deed. Let your reaping be free from the dust and filth of emotion. Test yourself year after year not by the vastness of the field of cultivation but by the quality of the yield and its quantity. Loving attitude should replace ease-loving-attitude.

Be a servant of your work, but be a master of your distribution of the wealth. Let equality find its proper place while we practise the art of distributing our wealth. Let each birthday celebrate the inauguration for a new course in the Wisdom Institute of the cultivation of life's

work. Let everyone pass through the previous class without a failure so that there may not be any necessity to read the same lessons once again. May Lord Maitreya, the Lord of Love, and the Christ of our hearts be our Teacher, Instructor and Guide. May He bless us all.

### BIRTHDAY OF H. P. BLAVATSKY

---

11-8-1979

**M**ADAM Helena Petrova Blavatsky forms a bridge between the East and the West. She carried the light of the East to darkness of the West. Now the white race knows about the Eastern scriptures in their right perspective through her writings.

The 'SECRET DOCTRINE', her *Magnum Opus* has influenced the scientific thought of the West in such a way that the present advancement of the

scientific dimension is due to her effort. Her work is usually accepted as the Master key of the secrets of science, philosophy and religion. The undercurrent of world religions is brought to light by her writings. The goal of human evolution and the work of the individual which paves the path towards the goal are, the two things that are mainly enlightened by the one light of the 20th century i.e., Blavatsky. Her word works as a blessing to every one who wants to live as a better follower of his own faith. Year after year her messages shine new in the light of the solution, mankind seeks, for the many problems which it creates to itself. May the problem of this year be solved and the solution sought through her word which serves as a blessing.

IMMORALITY towards the basic values of man leads a nation into slavery. Humanity is a musical instrument with its moral values as the strings for the co-ordination. Whenever they are wrongly harped, they give out a song of national slavery in the form of a prophecy. At present India represents such a state. It is for the Indian to decide between two alternatives : Either he should harp the strings of his fellow Indians according to the law of piety, purity and compassion,

or he should be prepared to be tended like a wild sheep by the mighty hand of a foreign nation until he is thrashed into the right path.

It is immaterial whichever foreign hand holds the rod. It is a deciding time. We do hope that the young Indian grows wise before it is too late. It should be against the rotten mind of the older generation. May he rise to the occasion and make his drama a tragic comedy. May the culmination be away from destruction. May the twenty-first century man not think of the present India in terms of a dark page of human history. May Light find its place and show the way.

**M**EN produce children and they do it unconsciously. This is because nature wants multiplication of species. It makes every being multiply its own class and it does it by using the instinct. So man produces children.

Man produces children but nations produce their own children. While individuals produce individuals who save themselves, nations produce souls who save the nation. It is all through the instinct of preservation and a pious act of preserving others. Those that are

produced by individuals can save only themselves, wives, children and 'their own people.' The souls produced by nations save nations and save man-kind. They live and they do not live to eat and save their skins. They live to show 'The way !' Souls, they live according to 'The Law' ! They take their birth according to 'The Law', they live according to it and they leave according to it. They show us the way how to be born, how to live and how to leave. They are those who come out while others are those who strive to go up in evolution. Those who come down are called 'Avatars' Those who have eyes to see and ears to hear can know the 'Avatars.' Such people know the Avatars while they are on this earth. Others live with the Avatars, serve the Avatars, but they do not know

the Avatars many a time. They know the Avatar only a little later.

Master C. V. V. is one among those Avatars. He came down to the earth to reestablish the Law. He lived The Law and he made some souls the units who transmit the Law and show the way. He could choose his own mediums and he has known to live through them on this earth after he left his physical body. Now, he lives through his own chosen few and those are his mediums. The Law he has reestablished on this earth is the Law, the synthesis, which people call Yoga.

He was born on 4th Aug. 1868. He transmitted his path of Yoga on 29th May, 1910. Now his people live in him through meditation and submission. They enjoy his presence by living in him and making him live through their own life because

they live to serve. They heal, they impart Yoga and they enjoy life instead of living away life. May the followers of the Master multiply in number and live in terms of service and live towards their fellow-beings so that the Master prefers to live through them and through time. May the Master guide them, provide for them and save them by showing the way.

## MY MESSAGE

*Message of Kulapati given on the  
eve of his 50th birthday.*

---

11-8-1976

PERIODS of expansion alternate with periods of consolidation. This is true with the growth of a Solar System, as well as an atom. This is followed by the cell of our organism. This is followed by the embryo in its development in the mother's womb. This is after the Law of Pulsation that exists in space and that which works out the beings and things in space. The 'I AM' manifests as Truth of

creation around which the Law of Pulsation operates.

We, the humans, who are given to know this Truth and this Law, are expected to ritualize this process of alternation of currents of intelligences (which expand and consolidate in alternation around the Truth.) The human beings are expected to imitate this alternation in the work they take up so that there is the continuity of The One Work in all. They are required to adapt this alternation in the plan of their work. Then they are initiated into the deeper Laws of Nature. Thereby they learn to tune themselves with the activity of the creation with all the Deva intelligences at work. This procedure removes the possibility of failure (since failure is the result of lack of arrangement,

organization, understanding and execution). Those who practise this come to know that the process of creative activity leaves nothing to chance. Awareness is The One Truth in all and there is no second thing which is called fate or fortune. Follow this, you will stand travelling in the present which has no place for a past or future. You will have only experience of your life as your work which leaves no place for lamentation of the past and anticipation of the future. This is what I work out for you. My work for you is eternally continuous. It has neither success nor failure but it is what it is. Let it be followed by you. Since you cannot endure the idea of no success, let success be with you when you follow me.

Human span is wishfully estimated as hundred years. I complete fifty years of

the supposed age of my physical vehicle and you may understand that my vehicle has reached its middle fold. An expansion of the first half of myself will alternate with my consolidation of my plan which includes your aspirations. Those who go fast will either regulate their speed or leave me behind. Those who fall short will either make up or leave themselves behind me. Those who recite the Vedic Hymns with me daily experience these phases. Those who are working under me will adapt themselves with my plan in the economic, social or intellectual work.

I have come down to earth not to be worshipped by the crazy dreamers as their god once again in a new name, but I am here to be realized by the workers as their own expression of work.

I am yourself uttered forth as your own Master. Remember that you are not different from your own Master. You are in no way other than your own Master. You have no second to yourself the 'I AM' in you. Let East and West be fused in 'ME' the 'I AM' of all. Let you live, work and realize Me in you.

THE progress of mankind depends upon the attitude to submit knowledge to progress. Knowledge in itself does not essentially lead to progress. Mere scientific advancement without an understanding of progress leads to destruction. Mankind had this bitter experience many times in the past. Even in the present century mankind is still and after scientific and technological advancement without cultivating the will to advance towards the welfare of

mankind. The result is that the individual is travelling towards the destruction of mankind. Such an undesirable instinct is not found in any one of the beasts of this earth except the human species. The main aim should be purpose and utility and not mere knowledge and achievement. Purpose is to serve and knowledge should be made a faithful servant of that purpose. Nothing is lost if mankind does not know many things and lead an uncivilised way of living. Increase of knowledge should not satisfy the pride of a civilised life. It is enough to remember that knowledge should not destroy man.

The nation of Bharat had shown the path of real progress to mankind many times in the past. Hence it had no taste to invade, or colonise other countries and nations. There were times when the Bharat culture purified the various parts

of this globe. Even then it had not entertained the idea of destroying other nations invading other countries. There are no evidences to that effect. The present inhabitants of the same Bharat are now trying to follow the footsteps of those who are war-minded. They are trying to act as the paid slaves of the foreign forces. The cause may be money, power or lust. Whatever may be the cause this path leads to either external slavery or total destruction of the nation. If the inhabitants of Bharat can understand this and change their procedure, then the nation will be relieved from disaster. Not only that, the Bharat can show the right path to all those, blood-thirsty nations after they are exhausted in the wars.

YOU cannot choose your Guru, he seeks you. You cannot know him until he finds you and often long after he finds you. In fact, he should make you find him. "This is my experience with my Guru, Master C.V. V. He lived in Kumbhakonam. He gave out the Light of his presence in the name of '*Bhrikta Rahita Taraka Rajayoga*' (the path that leads to one's synthesis which makes one cross bondage through neutralizing one's Karma.) His followers live in His Light which is beyond time. He calls them mediums

who transmit His Light. 'One who offers himself to Me is transformed to what I AM' is his promise. '*Prana Treat - Yoga Teach*' is the mantram of his process. It means that one can practise Yoga by healing oneself while one serves to heal others. '*Namaskarams Master C.V. V.*' is the mantram which we utter to invoke His presence at 6 a. m. and 6 p.m. every day. Through this, we are purified, cured, rectified and fulfilled. Through Me he crossed the oceans and entered the hearts of thousands. His Light shines around the globe. It knows only regulations and no restrictions.
