INVOCATION

May the Light in me be the light before me
May I learn to see it in all.

May the sound I utter reveal the light in me
May I listen to it while others speak.

May the silence in and around me present itself,
The silence which we break every moment,
May it fill the darkness of noise we do
And convert it into the Light of our background.

Let virtue be the strength of my intelligence,
Let realisation be my attainment,
Let my purpose shape into the purpose of our earth,
Let my plan be an epitome of the Divine Plan.

May we speak the silence without breaking it.
May we live in the awareness of the background.
May we transact light in terms of joy.
May we be worthy to find place in the Eternal Kingdom OM.

Master E.K.

PRAYER FOR THE YEAR

All names together utter the name of God.

A prophecy thinks from darkness to light.

Prophecy is fulfilled.

MESSAGE OF THE MONTH OF CAPRICORN

The winter solstice marks the end to growth of darkness. Darkness recedes and light grows. It inaugurates a 6-month period of growth of light and is therefore festive time for those who wish to release themselves from darkness to light. It is a festival for disciples.

The sunrays of Capricorn carry the yogic energy that lifts up those who look for life. The lift-up is from Makara. Makara is a five-fold being. To release from this crocodile, Makara, the sunrays of Capricorn will help. The five-fold aspects of Makara are the body of 5 elements, the 5 senses, the 5 sensations and the 5 pulsations of life. The symbol for lift-up is the 5-pointed star. Its initial colour is orange. As the disciple progresses it transforms into golden yellow, honey yellow, aquamarine, white and blue. The five-fold mantra is *Om Namah Shivay*. The symbol can also be Adonai or *Ardha-Nari*.

May the festival be celebrated for the entire month of Capricorn by those who pursue the path of discipleship. May the saviour touch them gently through the morning golden rays of the Solar God.

MESSAGE OF THE TEACHER

THE ASPIRANT

The aspirant is one who is ever prepared to listen to the splendour of the Divine. He is equally ready to speak of the Divine. His hands would be itching to do works of good will. His eyes are ever searching for the Divine in the veils of elements. He moves with the head slightly bent down in obedience to the Divine. Service is his breath. Such aspirants are eligible to receive the grace.

GÎTÂ-UPANISHAD
- LORD SRI KRISHNA -
FRIENDS, THE IMPRISONERS

Without the 5 senses man cannot relate to the objective world. Without the senses the man also cannot experience the joy of the world. Without the senses man cannot nourish even his body. He remains a daydreamer. It is out of compassion for the beings the 4th dimension of existence is created. Man should know the purpose of the senses bestowed on him and use them with responsibility and discrimination. If not he would be bond by the senses when he indulges through them. Like the turtle that projects when required and withdraws when not required, man needs to project only when required through the senses into the world. At other times he is advised to be at inner consciousness. The senses can be friendly or imprisoning depending upon man's ability to handle them. Foolish are the doctrines that advocate suppression of the senses.

MESSAGE OF MASTER CVV
CONSTRUCTIVE UTILISATION OF TIME

Everyone knows that time is most valuable. But only a select few act in accordance with the value of time. A daily analysis of time is important in relation to its usage to ensure gradual elimination of wastage of time.

When you dispassionately analyse, look out for the time you sleep. Sleep eats away much of the life span and it cannot be more than 6 to 8 hours a day. When the sleep is limited to 6 hours you have 3/4 of life. When it is 8 hours you have 2/3 of life available for usage.

The second aspect is in relation to the use of speech. Man speaks a lot for nothing. He unconsciously loses much time when he indulges in purposeless speech. Watch out your speaking habit.

Thirdly, watch out for aimless movements.

When you are alert relating to the above 3 you have enough time for discipleship.

Last word! Entertainment and relaxation is not excluded while you plan constructive utilisation of time. Discipleship provides for moderate entertainment, relaxation. It even demands an undercurrent of humour, which flows from the relaxed part of the being.

LORD MAITREYA
LOVE AND HEALING

In the groups all over the globe members talk frequently of healing. Healing is the ability to activate effective blood circulation into the areas where there is congestion. Ability to clear congestion of life force is to be achieved. Technically speaking, the healer should be able to locate the plexus relating to the area of congestion and activate the plexus to enable effective flow of life force through blood. This demands understanding of anatomy and physiology.

But the technique is not itself adequate for effective healing. The healer is required to carry adequate energy of love. The energy of love and life are inextricably linked. Love activates life energy. Love is the most sublime of the Divine energies and is the gem of the crown of an occultist. All great masters abundantly transmitted love. Love raises the dead to life.

For love to generate from the healer the fundamental requisite is gratitude and gratefulness. A healer should inculcate the quality of being grateful for all that is given to him: big and small from the higher circles and the mundane circles as well. The one who is ever grateful for having been allowed to exist and lives in that gratefulness the love flows from higher circles. The healer needs to fill every tissue of his body with gratefulness. He needs to be grateful to the 5 elements, 5 senses, 5 pulsations, mind, discriminative will, to the triple qualities, to awareness and to life force. He also needs to be grateful to other kingdoms like plant, animal, mineral and the Devas. There is a great deal of healing energy that the healer can tap from all the above sources. Be grateful to find entry into the temple of love.

MASTER MORYA
- MARUVU MAHARSHI -

PARADOX

Man really doesn't know the power of his thought. He is particularly ignorant of the impact of negative thoughts. The negative thoughts produce currents of anti-life and poison the blood. Cancer and other incurable diseases today are regularly fed more by the negative thought. Entertaining negative thoughts and emotions is the cause for rampant sickness in the human kind. Man is foolish enough to destroy himself by his own thoughts of jealousy, hatred, fear, prejudice and the like. He seems to be gaining dexterity in producing sickness out of life.

From the higher circles when we observe the humanity, we find that, generally, the humanity is today engulfed by the energy of jealousy. Rarely we find a human being who is not affected by jealousy. Competition is the womb from which jealousy springs. Competition seldom remains a healthy competition. It always slips into the realms of un-healthiness. In modern life, competition has come to stay and is understood to be the key to success. This success has a terrible carrying cost, which gradually disables man in terms of his health, which would in turn put him out of activity itself.

The energy of jealousy is a highly covetous energy. It not only affects its creator but also pollutes the surrounding. Thereby the weak-minded gets inflicted by the ill effects of jealousy. The paradox is that the energy of jealousy is more prevalent in goodwill groups. I wish to alert the goodwill workers of this destructive activity.

MASTER KOOT HOOMI
- DEVAPI MAHARSHI -
A BITTER SOUP

Do not shirk from being industrious. The one who is industrious in works of goodwill is the one who moves forward in discipleship. Normally, goodwill workers are excessively relaxed and are many times casual in their goodwill work. It doesn't help. Notice how industrious is a successful man in the world. The goodwill worker should be equally industrious as he, to restructure his energy system, which would enable the reception of intuitional thoughts.

Those who wish to work with us are recommended to regularly recollect the word 'Industry.' Industry helps you to safely course your path through times of depression, difficulty, delay and disappointment. Remember the sailor Sindbad, who coursed even through typhoons. Do not ever think, "How long should I be industrious like this?" If you pose such a question to us we have a ready answer for you, "you can stop right now." Whenever you get this question "how long?" you are unconsciously postponing the restructuring of yourself. If you ask us what could be the result of all this industry, we immediately grant you the fruits and say thank you. If you have no questions in you and when you do not seek any fruits for the labour you will be gifted with the Divine body. This is how we walked the path to be in such bodies.

MESSAGE OF MASTER E.K.
GOOD DAYS

From the angle of the seers (Rishis) there are no good days or bad days. Likewise, to those who always entertain good will in their thoughts all days are good days. For the worldly, there are good and bad days because of the good and bad thoughts that they entertain.

All days and all moon phases are significant and purposeful. The 16 moon phases bring in the message of 16 letters from the temple of the Solar God.

VIDURA
WISDOM TEACHINGS

Non-practice is death to knowledge.
Lack of self-restrain
is death to the Initiate.
Untruth is death to man.
Estrangement is death to woman.
Excessive desire leads all to death.

SHIRDI SAI SAYINGS
WAITING

Let the desire be into the fields of right action.

Let the wealth be utilised for right cause. Let righteousness prevail in all walks of life.

Yet they do not contribute to self-realisation and the consequent liberation. Only the Touch of the Teacher concludes and culminates in complete freedom. Until then learn to wait, being righteous!

SRI RAMAKRISHNA BE MAD FOR GOD

- If you must be mad, be it not for the things of the world. Be mad with the love of God.
- Some men shed streams of tears because sons are not born to them, others eat away their hearts in sorrow because they cannot get riches. But alas! How many are there who sorrow and weep for not having seen the Lord! Very few indeed! Verily, he who seeks the Lord, who weeps for Him, attains Him.
- He who yearns after God cannot bestow any thought on such trifles as food and drink.
- He who feels thirsty does not discard the water of the river merely because it is muddy, nor does he begin to dig a well to find clear water. So he who feels real spiritual thirst does not discard the religion near at hand, be it Hinduism or any other, nor does he create a new religion for himself. A really thirsty man has no time for such deliberations.
- Let your heart pang for Him as a miser longs for gold.

CHILDREN'S SECTION THE DOCTRINE OF ETHICS

Hate not anyone,
sink not with calamities,
condemn not at meetings.
lose not your heart to women.

CHILDREN'S SECTION

THE RIGHT USE OF FOOD

Substituting Heavier Materials of Food

Milk and honey too are very useful. Milk has a significant role to play in cleansing the layers of the body and purifying it. More of milk and milk products are therefore, strongly recommended. Milk helps to build the "Antahakarana" body - the subtle body. Lord Krishna lived only on milk and milk products during his life span of 126 years. He remained young and energetic and did not age with the years. Even during the last part of his life, his body remained youthful. He always had the appearance of a youth.

The message from his food habits is very clear. We too need to use more milk and milk products substituting heavier materials of food.

Among food substances too, leaf vegetables, vegetables that carry fibre, those which grow above the surface and fruits are preferable to the vegetables that grow below the earth, namely roots like potatoes. The vegetables that grow below the earth are not as much exposed to the Solar Rays as those that grow above the Earth's surface. Hence they tend to be heavier in matter.

BOOK REVIEW

SPIRITUAL PSYCHOLOGY

Spiritual psychology is one of the important occult tools to understand the deeper side of the constitution of man. It proximates the soul and deals with the essential characteristics of the psychology of the human soul. The exoteric psychology more often identifies the problems of a person but does not have solutions for in the exoteric science there are no answers relating to the functioning of the life principle and the principle of intelligence. The esoteric psychology deals with the inner man, his qualitative behaviour and the consequent effect on the natural equilibrium of his energy system.

"Spiritual Psychology" is a type of reference book to which one can constantly refer.

Extracts from the WTT-Europe Annual Report 04/05

10. India. Group Living, 08-29 January 2005 14- 29 January 05, Seminar: "The Doctrine of the 7 Races"

After the Guru Pooja celebration the seminar for the Western brotherhood started on January 14th. The Master spoke about "The Doctrine of the 7 Races". In a fascinating way he traced the great steps of human evolution on this planet and deepened in the listeners the understanding for the Secret Doctrine of H.P. Blavatsky. The secret of the Agnishvattas and the Barhishads, the gradual condensation of the human body, the separation of the sexes, the succession of the different races through millions of years - the topics were captivating and the auditors listened magnetized to the comments of the Master. Highlights were the description of the greatness of Lemurian culture, of the pride and arrogance of the Atlantean rulers and their doom, of the seeds of the post-Atlantean, Aryan culture, in which we live today. The seminar ended with a forward look at the future development of the human race in the coming centuries and millennia.

Besides the lectures the group visited different service projects of the WTT-India. We saw the Mithila Schools in Visakhapatnam and on the site of the Kapila-Ashram, Tadi, situated completely in nature. Under most simple outer conditions the children receive there a deep spiritual education.

On January 16th there was the marriage ritual for Brother Hubert Ross and Sister Heike in the presence of the fire and with the blessings of the Master.

On January 18th we did our evening meditation at Sundaravanam, the memorial in honour of Master EK at the beach road of Visakhapatnam, followed by musical presentations in honour of Master Annamacharya, an initiate of music of the 16th century. The open-air stage with a statue of the master is maintained by the WTT-brotherhood and is located directly next to Sundaravanam.

EXTRACTS FROM THE TEACHINGS THE HIGHER ASPECT OF LIBRA, Part XVI

Dr. Sri K. Parvathi Kumar

Peñíscola Group Living, Spain, June 2003

The Lord says in *Bhagavad Gita*: “I am A among letters.” That is why every language except English starts with the alphabet A, in Sanskrit also with A. E is the third state of the mental state. A is the first state. It is the original which cannot be described. E is the awareness of A. That is why all *Mantras* are with E. C.V.V. - in all the three you have E E E. Then you have HREEM, KLEEM etc. E is the consciousness and is the first envelop around THAT which is A. That is why when we are stunned, we say - A! Unconsciously we utter this sound.

In the 10th chapter of *Bhagavad Gita* the Lord says: “I am the sound A.” The World Mother, the universal consciousness, says: “My name is E.” Whey A and E are compound, then we have AE. It is Adam, but not Aedam. There is already a distortion as Aedam. Who is the first woman? Eva. Don’t think they are all just casual sounds. Eva has two seed-sounds in it. EEM and VAM. EEM is first emergence as universal awareness, VAM is, as I said, the energy of the west. Emerging in the east, it reaches west. That is why Eva represents west. Adam represents beyond orient. ‘A’ therefore stand for north, the crown. From there Adam comes to the east to meet Eva. In the north there is total silence. It becomes light, when it comes to east. That is why north is considered the Nadir, seeming darkness, seeming nothingness. From there, when he meets the lady, that means, when she comes out of him, it is light in the east. That is already your *Ajna*.

Please, remember A + E, Adam and Eva creating all this, and we are in the jungle. There are many dimensions to the scriptures, if you know the seed-sounds, and all scriptures contain these seed-sounds. *Asanga!* A *sanga* means: Associated with A. *Sanga* means attachment. *Asanga* means detachment. But esoterically *Asanga* means attachment with A. Sanskrit scholars don’t know it. Only those who are in the path of light, they know it. That is why they don’t speak of detachments. People who follow the path of *Raja Yoga* do not speak of detachment. They say: “Anyway, you are habituated to attach.” So, let us use the same attachment. That is *Raja Yoga*.

Religions tell us: Be dispassionate! *Raja Yoga* says: No dispassion. Have passion! But know, where to apply it! Be passionate in gaining noble things!

So, Libra gives you the clue: Don’t try to look at the roots. This cause and effect pursuit will only put you to somersaults, upside down, upside down, moving in circles. People want to know the roots of the tree, but the roots are in the branches, they are all confused. That confused tree is this creation.

People think, this is the cause, but why did that cause arise? There must be some other cause for that cause! In pursuit of causes and in pursuit of roots they come to the branches, and in pursuit of branches they come to the roots. They will never see the whole beginning. That is what the 15th chapter of *Bhagavad Gita* says: “Don’t get tired in your pursuit of cause and effects.” The Lord gives the example of the banyan tree. The banyan has the branches becoming roots, and the roots again developing branches, and it keeps on expanding beyond any borders. So, branches become roots, roots become branches, and you cannot say, that this is the branch and this is the root. The root is the branch to be and the branch is the root to be. So, which is branch and which is root?

Get out of this circle of cause and effect and associate with the very basis of this wheel. See, THAT as this. To see THAT in all that is visible, in all that is audible, will relieve you from the encirclements in all the seven planes. That is where Libra gives the clue. Wherever you are, there is the centre.

When I went to Israel, we went to the Dead Sea. The people there claim that this is the navel of the planet. I remained silent, meaning: neither agreement, nor disagreement. I went to Mexico. There they claim that this is the navel of the planet. Then you go to India. They also have many places which is the navel of the planet. How can you have so many solar plexuses for the planet? One is enough! One solar plexus is already causing so many problems.

You as yourself are the centre. In relation to you there is the horizon, and the person sitting over there is the centre, and he has his own horizon. The one who is at the horizon is the centre to himself, and he has a different circumference. That is why the statement is: Centre everywhere, circumference nowhere. Circumference is your illusion.

When I am in India, from there I have my horizon. When I am in Venezuela, I have a different horizon. Which horizon is mine? No horizon belongs to me. But wherever I am, I AM. So, the centre is everywhere. That centre is called A in terms of sound. Its number is 0, its colour is blue, and its nature is perfection. We say, it is Zero in English, because we don’t have the right term of what exactly is said in the scriptures. The scriptures say *Poornam*. The numerical value of it is full. When it is full, it is all round. That is why all round formations happen from it. That is where there is the mathematical equation: That which comes out of that fullness, called Zero, is also full. *Poorna Madah* - that is full. *Poorna Midam* - this is full. Zero comes out of zero. Zero when taken out of zero, zero remains. Zero when multiplied with zero, zero remains. Zero when added to zero, it remains zero. Zero minus zero, it is zero. You divide zero by zero, it is zero. This is *vedic* mathematics, given out as

Poorna Madah, Poorna Midam
Poornat Poorna Mudachyate
Poornasy Poorna Madaya
Poorna Meva Vasishyate.

It is always full. Only we feel that we are not full. To us this creation is imperfect. But not to the Masters of wisdom. It is perfect. All is in divine order. Only the disease in us, the discomfort in us, the truth crystallised in us shall have to be eliminated. That is why Libra speaks of the term *Asanga*. See Me! Then you reach Me. You have no conflict. If you don't see Me, you see other things and make your own understanding. But if you see Me, you make the right understanding. One Vedic hymn says: You see Me, but you don't see Me. You listen to Me, but you don't listen to Me. What can I do for you? So, you have to see the basis of every being. The basis of every being is existence pure, and with that existence as basis there is the spring up of awareness, and that awareness details into different qualities. The qualities are different, awareness is the same. Light is awareness, colours are its qualities. So, there is something common or something united. One light, many colours, one sound, many sounds, one awareness, many qualities, one vegetable kingdom, many vegetables, one human kingdom, many humans.

So, it is *uni-verse*. Be associated with that which is uni, then you are straight away with IT, and you become THAT, and you don't have to make a huge travel. The truth is not far away, it is immediate and immanent. There is a book written by Richard Bach called "There is no such thing as far away". Please, read that book. It is the shortest written book of 30 pages with 10 sentences, but with the best presentation of truth. It is not distance, it is not even proximity, it is you only. Where do you find Him? You are trying to see Him as something other than you. As long as you differentiate Him from you, you can't find Him. That is why all search concludes with be-ness. That is why we are called beings. In the advanced states of truth, there is no such thing as sense of achievement. It is the sense of be-ness. Achievement means, you are setting something which is different from you. You propose distance to you. But there is no distance. It is verily you. That is why it is called THAT.

I AM - I AM THAT - and verily THAT I AM.

PARACELSUS HEALTH AND HEALING

IMITATIVE HOMOSEXUALITY AND TODAY'S MAJOR DISEASES

Continuing with the theme of homosexuality, which is a "leftover" from the excesses of Lemurian times, an inherited taint, it may be said that there is today "imitative homosexuality" prevailing in the human community. In fact, the imitative homosexuality is far more in numbers than the original. The originals stand a good chance by reorientation to goodwill, but the duplicates do not have that chance. They have only an option to drop from such evil habits. The solution to them is to get away from such imitations. They indulge through their imitation into wild imagination and prurient curiosity. These tainted people are baser in their nature and have powerful physical bodies and ugly sex orientations. Their psychology leads them to give birth to sodomites and lesbians. These sicknesses are deep and generally cannot be retrieved. They are in difficult situation. So is the psychologist dealing with them. They are subjects of deep pity and commiseration and need humanitarian consideration.

Much light needs to be thrown upon this problem, since large number of people are called upon to face it. The goodwill workers, the physicians, social workers, psychologists, and all allied workers meet with this problem. They would do well to know the originals and the imitative ones.

The inherent taints spoken of before (in the editorials) such as excessive desires for material, for sex, need to be seen, are the root cause for all the major sickness on the planet. Humanity carries these taints over many generations, and the physicians need to recognize it. It would be an interesting experiment if these various inherent difficulties of mankind are understood and their consequent diseases are recognized. It is these original impulses which need to be treated, but not the peripheral manifestations. That is the real challenge for the medical service today.

To reiterate: tuberculosis, syphilis, cancer, heart difficulties and nervous diseases, are the major diseases today that emerge from three main factors. They are:

1. Uncontrolled and irregular emotions.
2. Excessive desires, inhibited or rampant.

3. Worry and irritations.

Most of the complaints from which the average humanity suffers are based upon these causes. Men and women are mostly victims, but the causes producing illnesses - physical or psychological - are hidden in the past. The past presupposes long and well-established habits, but these well-established habits took their toll in two ways:

1. Desire, dominating and controlling action.
2. Mental control to substitute desire.

Domination and control had their side effects. This needs to be studied.

GREAT INVOCATION

Let us form the Circle of Good Will.

OMNIA VINCIT AMOS

From the South through Love
which is pure.

From the West through Wisdom
which is true.

From the East through Will
which is noble.

From the North through Silence
which is golden.

May the Light make beautiful
our lives.

O Hierophant of our Rite
Let his love shine.

OMNIA VINCIT AMOS

Let us form the Circle of the World Servers

We bow down in homage
and adoration

To the Glorious and Mighty Hierarchy,
The Inner Government of The World,
and to its Exquisite Jewel,
The Star of the Sea -
The World Mother.

From the point of Light
within the Mind of God
let Light stream forth
into the minds of men.

Let light descend on Earth.

From the point of Love
within the Heart of God
let love stream forth
into the hearts of men.

May Christ return to Earth.

From the centre where the
Will of God is known

let purpose guide the little wills of men,
the purpose, which the Masters
know and serve.

From the centre which we call
The race of men

Let the Plan of Love and Light
work out

And may it seal the door
where evil dwells.

From the Avatar of Synthesis
Who is to come

let His energy pour down
in all kingdoms.

May He lift up the Earth to the
Kings of Beauty.

The Sons of Men are one
and I am one with them.

I seek to love, not hate.

I seek to serve and not exact
due service.

I seek to heal, not hurt.

Let pain bring due reward
of light and love.

Let the soul control the outer form
and life and all events,
and bring to light the love
which underlies the happenings
of the time.

Let vision come and insight.
Let the future stand revealed.

Let inner union demonstrate
and outer cleavages be gone.

Let love prevail.

Let all men love.

Master D.K.

OM

is the handmaid of God
to create, develop and dissolve
a Universe.

OM leads you,
guides you
and enables you
to preside over life.

Stay in OM.
Live skillfully presiding over life.
Association with OM at all times
is the way.
