## INVOCATION

May the Light in me be the light before me  
May I learn to see it in all.

May the sound I utter reveal the light in me  
May I listen to it while others speak.

May the silence in and around me present itself,  
The silence which we break every moment,  
May it fill the darkness of noise we do  
And convert it into the Light of our background.

Let virtue be the strength of my intelligence,  
Let realisation be my attainment,  
Let my purpose shape into the purpose of our earth,  
Let my plan be an epitome of the Divine Plan.

May we speak the silence without breaking it.  
May we live in the awareness of the background.  
May we transact light in terms of joy.  
May we be worthy to find place in the Eternal Kingdom OM.

Master E.K.

## MESSAGE OF THE MONTH OF SCORPIO

The 8<sup>th</sup> sign of the zodiac is indicative of the limitations of the soul. It is also indicative of death. Scorpio, the cosmic 8<sup>th</sup> house, as also the 8<sup>th</sup> house of every person, gives the clue to the individual limitations and also the quality of death that one would have. The transit of the antinode in Scorpio happens once in 18 years. It is both, an opportunity and also a calamity. It is an opportunity in the sense that it releases the beings from many things of the personality.

The antinode is the greatest releaser, while the node is the gripper. The node grips and the south node releases. Release from body, release from personality, release from self-conditioning, release from variety of thoughts can be beneficially gained to appropriate attunement to the quality of the south-node. It is but true that when the south-node visits the 8<sup>th</sup> house, many of the limitations are hit when the person is not willing for release. When the person is willing, it is an opportunity for release of the existing conditionings.

The beauty of the south node is, that it shows the illusion of things and enables release. Only little is known of the node and south node in the western astrology, while the Indian astrology gives much importance to them. The seekers of Truth, ie. the disciples, plan all their activity on the basis of the movement of the node and the antinode. They accordingly plan the related house activity.

The 8<sup>th</sup> house is of great importance in astrology. The cosmic 8<sup>th</sup> house, Scorpio, has the clues to death. The first teaching of all the ancient Scriptures is about the illusion of death. Once this teaching is well comprehended, the human beings know that a life is a station and we keep transiting; hence, we don't have to develop deep roots into the worldly activity. The one who develops such deep-rooted activity is understood by the Scriptures as a mobile grave. The body is seen in the Scriptures as a transit house, and hence ownership is not developed vis-à-vis the body. When there is no ownership with the body, there is no ownership to any worldly thing since the ownership on worldly things terminates with the termination of the body. This truth needs to be deeply engraved in the psyche of a disciple so that he does work without ownership and the related possessive attitude.

Scorpio demands knowledge as to how to release. That is the challenge.

## MESSAGE OF THE TEACHER

### Righteousness and Comfort

Practice of righteousness is for the sake of righteousness only, not for happiness as many think.

Ignorant are those who think that righteousness helps comfortable living. Those who look for comfort through righteousness are preferring personal life to righteousness. To them righteousness is secondary, personal comfort is primary.

The real righteous ones lived for righteousness and to them personal comfort was secondary to righteousness. Such righteousness opens doors into the temples of wisdom. Such righteousness is the gateway between us and the Masters of Wisdom.

## GÎTÂ-UPANISHAD

- LORD KRISHNA -

A DIMENSION

Many wish to see Me in form.

They know Me when they experience the bliss.

I AM the bliss centre in each one of the beings.

You miss Me because you look for bliss outside.

I AM in you as your bliss.

I AM in you as your existence, your awareness.

I AM the being, you are My reflection.

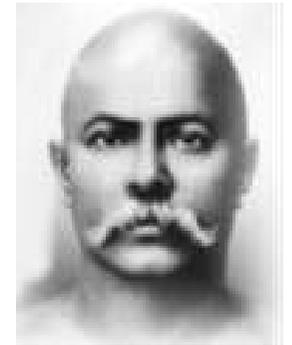

I AM the non-doer, you are the doer as My reflection.

I AM the being, the doing.

I AM Narayana, you are Nara.

## A WORD FROM MASTER CVV

The Dirty Dozen

The following are advised to be abandoned at once:

Do not judge and do not find fault.

Do not expect others to have similar thoughts as you have, and similar opinions as you have.

Do not expect practical knowledge from the co-workers.

You may not forget but you should learn to forgive.

Do not brood over failures and do not laugh at others' failures.

Do not aggravate situations to expose people. That is like making a mountain out of a mole hill. Instead, make a mountainous mistake into a mole hill.

Never shirk from helping others where you can.

Never sacrifice your discrimination.

Do not think that what is not possible for you is not possible for others.

Do not think that what you know is the only truth. There can be other dimensions.

Do not think that what you taught is understood.

Do not be under the illusion that your routine is the rhythm, your view is vision.

## LORD MAITREYA

### SILSILA

To reach the Hierarchy you need a Teacher.  
For the earthy beings to reach the divine planes the Teacher is the Way.

To be more specific: He is “the only Way”.

This is known to the Indians from ancient times.

This is made known to the west 2000 years ago by Jesus.

Jesus proclaimed: “I AM the Way”.

When he said it, he gave a key to the West.

While each being is I AM in essence,

he does not know the Way to himself.

The Teacher knows the Way.

He leads you by the Way.

Many time you are not conscious that you are led by him.

The benefits that the Teacher bestows to you to walk the Way are unavailable to those who wish to walk by themselves.

Following the Teacher is following the Way.

Many followed that Way.

Even Buddha followed the Teacher.

For that reason he is called *Tathagatha*,  
meaning: “The one that followed the Way”.

Each disciple that turned into a Master is a *Tathagatha*.

Know this and choose for yourself.

The Hierarchy is built on this principle over 5000 years.

This principle is called *silsila* in the Transhimalayan ashrams.

## MASTER MORYA - MARUVU MAHARSHI -

### DUPLICACY

There is only one God and one Temple. Creation is the temple; the awareness in Creation is the force; the law that governs the force is the Lord. The Lord is force, and His Creation should be seen as the one Lord and the one Temple. The three exist in every being. There is the being, the awareness of the being and the form of the being. This is how the beings are a replica of the one Lord, the one Law, the one Force and the one Form.

In Nature every form is a temple. The being in the form is the Lord, the force in the form is the awareness. While it is so, man built replica to a replica. The beings are already the replicas, the temples that man has built are replicas to replicas. While there is God made temple, man also made temples. He built the form of a temple as a replica of the creational form. He installed a *yantra* as the replica of force, and He has set an image of gold as God within the Temple.

There are images to images multiplying into multitudes causing the gradual disappearance of the true temple and the true divinity. The duplicates have become the original and the original disappeared into oblivion, illusion reached its heights and thousands of practices have come to be. Who can decipher all these illusory activity.

The best way is to burn it and start working afresh. *Agni* Yoga is the path that burns such illusions. Let man look to himself as the Image, and to the one in him as the Original. Let man look to Him in each other.

**MASTER KOOT HOOMI**  
- DEVAPI MAHARSHI -  
**THE VISIBLE MASTERS**

The camphor burns itself to purify the surroundings.  
The candle burns itself to enlighten the surroundings.  
The sandalwood wears out to spread the cool and the fragrance.  
The sugarcane crushes itself to spread the sweetness of life.  
They are immortal objects in Creation.  
Know the secret of immortality.  
Sacrifice is the Path to Immortality.

Some sacrifice goods, others sacrifice money, still others sacrifice belongings,  
yet others sacrifice thoughts, some sacrifice all their instincts;  
to some, sacrifice in action is the way of life.  
To very few, self-sacrifice is the culmination into the One.  
Such ones instantly reach Masterhood.

The symbols given in the first paragraph are the examples of mastery in sacrifice. They are the visible Masters.

**MESSAGE OF MASTER E.K.**  
**SCORPIO**

I AM THE WAY  
“There is nothing beyond Me.  
Creation is My Nature.  
My Nature has the habit of creating.  
My Nature details into 8 states.  
While Nature itself is beyond the 8<sup>th</sup> as the 9<sup>th</sup> one,  
I AM 10.

My Nature emerges from Me and unfolds into 8 states as I AM.  
As I am individual it has its *buddhi*, *manas* (mind) and the 5 senses.  
Meditate upon Me, to reach Me as the One beyond Nature.  
There is no other way to reach Me.  
I AM the Way.”

This is the Vedic understanding reiterated from time to time by every Teacher. It is the ancient-most of the teachings.

## VIDURA

### WISDOM TEACHINGS

Avarice destroys peace and poise.  
Time destroys the body.  
Anger destroys wealth.  
Misirliness destroys reputation.  
Lack of surveillance destroys cattle.  
The anger of the righteous  
destroys a nation.

## SHIRDI SAI SAYINGS

### THE THRESHOLD

The ignorants think of gaining knowledge.  
The self-styled teacher too, thinks of imparting knowledge.

Knowledge is. It exists as one-self. It need not be imparted or introduced. What IS needed is removal of ignorance - unveiling the illusion.

True knowledge lies in knowing what is transitory, illusive, impermanent, and changing. It leads to unity of existence.

**CHILDREN'S SECTION**  
**THE DOCTRINE OF ETHICS**

Your acts of good will  
nourish during the  
days of misfortune.  
Your acts of evil help not  
even while you are  
in fortunes.

**CHILDREN'S SECTION**  
**THE RIGHT USE OF FOOD**

**The Threefold Activity**

Man's essential activity is threefold. As he wakes up in the morning he works with his body. Throughout the day, during his wakeful hours, he continuously works with body either physically or emotionally or mentally. He thereby continuously uses either the physical body or the body of senses or the mental body. He cannot but use either of these bodies or all of them during wakeful hours unless he is a Yogi. Thus, activity is one essential function he carries out.

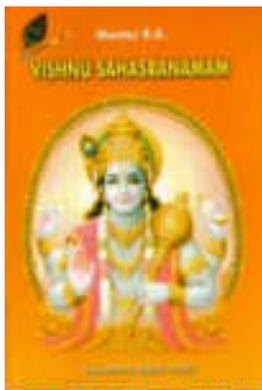

As he uses the body, which is his vehicle of expression, he needs to feed it with fuel. Food for body therefore forms another essential factor in man's activity. He needs to eat and drink to keep the body fit for work. He needs to maintain it well, so that it serves his purposes, just like you need to give gasoline to the car that you use. Unless you are a Yogi of a high order, you need to eat daily and also two or three times in a day.

As man works with his body, fuelling it now and then during the day, he becomes tired by the evening/night and he therefore needs to sleep. The more he gets tired the more he sleeps. The need for sleep and the number of hours of sleep depend upon his intake of food, his physical exertion and mental exertion. A Yogi, though he works with mind, sense and body, does not get exerted. As he does not get exerted, he does not need to sleep as much as an ordinary human being. During nights he rests but he does not sleep.

## BOOK REVIEW

### VISHNU SAHASRANAMA

Vishnu Sahasranama means “The Thousand Names of the Lord” and represents the quintessence of ancient Indian thought. The text of this Scripture is the 13th book in the great epic poem of Vedic literature, The Mahabharata, composed by the sage Veda-Vyasa, a contemporary of Lord Krishna, more than 5000 years ago. The word meaning for each of the stanzas is described, followed by a lucid explanation which utilizes the etymological, astrological and spiritual keys to bring out the significance of each of the 1000 names of the Lord.

### THE DOCTRINE OF ETHICS

Ethics are the need of the present times. In truth, ethics have an eternal value in human activity. Ethics need to be studied and understood from their force aspect and not for their moral, religious or spiritual value. Ethics help transference of the Soul from self-centred emotional nature (solar plexus) to harmonising rhythm of life (Heart Centre). This Doctrine of Ethics is for the parents who wish to guide their children.

Suspicion and malice invent mistakes.”*

### Extracts from the WTT-Europe Annual Report 03/04

#### Paracelsus Camp, Group Living with children Sonnenberg (Switzerland), 19 - 24 July 2003

A group living organized by the Agni School Switzerland together with the WTT Europe took place in Einsiedeln, the birthplace of Paracelsus. 11 children and 16 elders coming from Switzerland, Germany, Spain and Austria, met in a mountain chalet in Sonnenberg, on the Saint James Way, to familiarize the children with future group livings. In this group living even the kitchen was entirely organized by the group. The daily programme included Yoga asanas, after which the mantram OM NAMA SIVAYA SIDHAM NAMAHA was sung to strengthen the will; classes under the trees to explain the history, uses and properties of plants as well as the legends relating to them; explaining the life of initiates like Paracelsus and Albert Einstein. A pilgrimage to the natal house of Paracelsus, where the mantram OM NAMA SIVAYA SIDHAM NAMAHA was sung by the children, and a walk to collect medicinal plants and prepare a healing balm in the woods, were also done.

## GROUP FORUM NEWS & ACTIVITIES (Inputs welcome)

### Group reports: Germany

**Name of the group:** W.T.T. Group of Berlin

**Contact:** Karin Richie-Löschke, e-mail: karinrichie@web.de

**Address:** Aachener Strasse 28, D-10713 Berlin

**Tel.:** 0049 (0)30-8227631 **Fax:** 0049 (0)30-8227631

### About the Group

The group consists of 15 members. In irregular intervals we visit the Brandenburg Gate to meditate in the so called Room of Silence (energetically important point in Berlin). Two to three different persons practise this meditation.

### Service Activities

**Distributing Food:** Master Kumar recommended to distribute food for hungry children. Because hungry children are not easily found though they are there, we have spent money and food for social institutions for street children. We have focussed on one address: The Arche, Center for Children and young adults, Berlin. Once a month we give food to this institution. This organization is financed only on a basis of donations and wants to build up so called soup kitchens for street children on the Alexanderplatz. We want to contribute to this. We arranged a bank account for our group for this and other purposes we can take the necessary money for the food we spend from.

**Social Help:** Some of us support an activity called into life by Sabine and Manfred Markgraf. One group member passed psychotherapeutic trainings, which she relates with the teachings of the Masters. This facility she uses to help people on their way.

Most important for us is the integration of the Teachings of the Masters into every day life. Most group members work every day and try to integrate the teachings of the Masters by helping people who are in need, - with donations of clothes, talks etc. We try to support people with problems of all kinds.

Often it is possible to effect other people within one's job by a special commitment that is more than the normal duty: To give advice in a proper vegetarian diet, in children's education or talks about values and ethics in everyday-life, recommending books of the Masters. We could see how people have changed their lives. So we enjoy service more and more and try to live the teachings of the Masters daily.

## EXTRACTS FROM THE TEACHINGS THE HIGHER ASPECT OF LIBRA, Part IV

Dr. Sri K. Parvathi Kumar

Peñíscola Group Living, Spain, June 2003

The scriptures tell us that those who condemn the woman will be condemned. Don't think otherwise. In future it is going to happen. The very nature which is the basis of all this creation is represented by the woman. She cannot be condemned. As much as you condemn the woman, so much you get condemned and even damned. That is why the suffering is so much today to humanity.

*Durga* says: "You cannot pass through me. I stop all your movement. I just arrest you, until you gain the right attitude. Develop right attitude, please me and pass through.

Then we come to an aspect of Libra as it was in the past. In ancient times, when the creation was not up to its 12 zodiacal manifestations Libra was the mid-point. There were five sun signs preceding Libra, and there are five sun signs succeeding Libra. The first sign is Aries, the second is Taurus, the third is Gemini, the fourth is Cancer, the fifth is Leo/Virgo. Leo/Virgo was one sign. That is how you have the symbol of Sphinx: the lady with the lion body. The Egyptian's Sphinx gives the message of the ancient zodiacal energy, where the virgin is not separated from the leonine energy. The Virgin and the Leo were together. The anterior is the lady and the posterior is the Lion.

The same symbol in the *Vedic* times was the lady on the lion. That is *Durga*. The lady on the tiger is *Durga* of Libra. In India you have the two symbols. There is the lady on the lion, and then there is the lady on the tiger. The lady on the lion is Virgo mounting the lion. The lady on the tiger is the lady mounting the tiger, meaning the tiger of passion. You see the passion of a tiger. Its passion has no nobility in it. The lion has nobility. The tiger has passion without nobility. Acts of attraction, in so far as they are noble, they are conducted by evolved men. Nobility is in preference to attraction. But in Libra attraction is in preference to nobility. So, to master the attraction is like mastering a tiger.

In ancient times, the objectivity is from Aries to Leo/Virgo. Then there is the junction point in Libra. It is followed by the subjectivity of five sun signs, from Scorpio to Pisces. That is how there is manifestation and de-manifestation, and the manifestation transforms into de-manifestation through Libra, and the other way the de-manifestation transforms into manifestation. That is how Libra conducts subjectivity into objectivity and objectivity into subjectivity.

- Aries: In Aries the energy is an out-going live. That is why Arians are ahead of others in doing things and reaching.
- Taurus: As you go out with the Arian energy, Taurus conducts a directed desire. Buddha had a directed desire to reach the truth. The Taureans have a strong will to conduct the decided desire. It is the bull power. 'Come what may' - it has to go ahead.
- Gemini: In Gemini there is dual consciousness. Already the out-going life and directed desire think of pros and cons.
- Cancer: In Cancer there is incarnation - manifestation.
- Leo/Virgo: In Leo/Virgo there is the dual development of consciousness: the soul consciousness and the personality consciousness or the personality consciousness and body consciousness
- Libra: In Libra the balance is accomplished.
- Scorpio: In Scorpio there is the reversal of direction of life. The life takes a new turn. Enough! I shall now return to my Father. That decision is made in Scorpio.
- Sagittarius: In Sagittarius there is discipline and regulated life. Arjuna is an excellent example of Sagittarius. He was born in the month of Sagittarius, and he has conducted completely in tune with the energies of Sagittarian: living, working and serving the fellow beings, setting goal after goal and reaching them, ultimately resulting in the Lord deciding to reside in his vehicle. That kind of regulated disciplined life, after one has taken a new turn, is represented by Sagittarius.
- Capricorn: In Capricorn you reach the mount to gain the initiation.
- Aquarius: In Aquarius the individual service of Sagittarius transforms into the world service. That is how the world server happens.
- Pisces: In Pisces the transformation is that of the world saviour.

Then in Aries again there is the pass-over. You complete a cycle and then pass over into higher circles. That is why all initiates pass over into higher circles in the month of Aries. That is how a cycle is conducted. But for others again the same cycle starts, again into Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, etc., and again into it, and again into it, until one is fed up. How many times you can move in the wheel, the Wheel of Vienna? If you are a child, you say 'once again, and once again' till you get the reeling sensation in the head. Once you get the head ache of it, you say, "No more, I want to get away from here." This reversed direction, when it happens in man, it means, he has entered in spirit into Scorpio. Enough is enough, please let me get back! That is the work of the first five sun signs and the second five sun signs with Libra as the fulcrum.

The zodiac has to be understood in many ways. That is where you get the message of Sphinx. The Sphinx has lost its meaning, because the lady of val-

ues, the lady of nobility of Egypt has fallen into the lady of passion. When passion took over, the civilisation of Egypt disappeared. It is a story of every civilisation. Since we speak of Sphinx, we have to speak of Egypt. It almost disappeared. So, through passion all values will disappear, and hence the fall is considered to be in Libra, but Libra also can give you the rise. The source from which you fall is also the source from which you rise. The means of fall is also the means of rise.

Libra is a sign of values, balancing the inner and outer life, balancing the values, balancing the pairs of opposite, balancing the personality and body, balancing the personality and soul and balancing the soul and the super soul. The objectivity and the subjectivity are conducted by Libra. Libra is the radiating force. It radiates from centre to circumference. It is also the converging or blending force, from circumference to centre. So, from centre to circumference and from circumference to centre Libra permeates. It means Libra is total. That is why Libra is said to be the counterpart of Aries, the feminine aspect of Aries. The masculine aspect of Libra is Aries. Libra is the lady in expression, and Aries is the male to remain subjective. All the six centres of the body exist in Aries and also in Libra. That is why it is a complete sign. It can cause radiation from centre to circumference causing the necessary manifestations of the creation.

You all know that the total wisdom is the relation between the centre and the circumference. It is called Pi. From centre to circumference the relation is that of Pi. It is the radius that conducts the individual soul to the universal soul, and also relates the universal soul to the individual soul, and it also the path. That is why Libra forms the very vertical being of the creation and also of the human being.

## PARACELSUS HEALTH AND HEALING

### THE RIGHT WAY OF LIVING

A person's way of living has major impact on his health. The mental, the emotional and the physical attitudes and habits decide the degree of health or its lack of it. The attitudes of a person exist in him as seeds and sprout in a given occasion. A balanced approach to life holds the key to health. Inner harmony and poise contribute substantially to maintain stable health. In the present world covetousness, competition and the consequent jealousy are playing havoc. An average mind is affected by them. Suspicion, anger, hatred, doubt are the by-products. Fear, anxiety, depression are the further by-products. When man's mental and intellectual energies are affected by such of those mentioned heretofore good health cannot even be thought of.

Emphasis upon pure hygienic food, organic food, etc., becomes lopsided unless man learns how to desire and how to think. He should be educated how to co-exist, co-operate and contribute to the general good, instead of his own good. Ability to adjust, adapt and live with inner poise would contribute substantially to healthy living. Frequently many fanatics of healthy food are falling sick these days. This is because healthy food alone cannot help unless they have healthy emotion and healthy mental orientation. At the same time persons with healthy mind are found to carry better health regardless of their orientation to healthy food. Furthermore in the name of health the modern man is excessively securing himself, losing the natural immunity system. In developed countries the rate and the depth of sicknesses do not seem to be far different. Their development led them to seclude themselves from their exposure to nature, weather and atmospheric conditions. As

much as one secures from the atmosphere so much he becomes insecure vis-à-vis his resistancial powers.

Incurable diseases such as rheumatic arthritis are growing unchecked. Psychological imbalances amidst youth are frequented. Greater dental care is counter-balanced by early loss of teeth. Medicine cannot be a solution to all this paradox. Education about the Laws of Nature and man's right relations with it is becoming more and more relevant. Man should be taught the human nature, the human constitution and its adjustment with the surrounding nature. Until the right way of living is learnt, the rat-race between the disease and the medicine continue to grow and health becomes ever evasive.

The modern medicine therefore should include in its education the natural laws behind health and healing.

# GREAT INVOCATION

Let us form the Circle of Good Will.

OMNIA VINCIT AMOS

From the South through Love  
which is pure.

From the West through Wisdom  
which is true.

From the East through Will  
which is noble.

From the North through Silence  
which is golden.

May the Light make beautiful  
our lives.

O Hierophant of our Rite  
Let his love shine.

OMNIA VINCIT AMOS

Let us form the Circle of the World Servers

We bow down in homage  
and adoration

To the Glorious and Mighty Hierarchy,  
The Inner Government of The World,  
and to its Exquisite Jewel,  
The Star of the Sea -  
The World Mother.

From the point of Light  
within the Mind of God  
let Light stream forth  
into the minds of men.

Let light descend on Earth.

From the point of Love  
within the Heart of God  
let love stream forth  
into the hearts of men.

May Christ return to Earth.

From the centre where the  
Will of God is known

let purpose guide the little wills of men,  
the purpose, which the Masters  
know and serve.

From the centre which we call  
The race of men

Let the Plan of Love and Light  
work out

And may it seal the door  
where evil dwells.

From the Avatar of Synthesis  
Who is to come

let His energy pour down  
in all kingdoms.

May He lift up the Earth to the  
Kings of Beauty.

The Sons of Men are one  
and I am one with them.

I seek to love, not hate.

I seek to serve and not exact  
due service.

I seek to heal, not hurt.

Let pain bring due reward  
of light and love.

Let the soul control the outer form  
and life and all events,  
and bring to light the love  
which underlies the happenings  
of the time.

Let vision come and insight.  
Let the future stand revealed.

Let inner union demonstrate  
and outer cleavages be gone.

Let love prevail.

Let all men love.

Master D.K.

Those who aspire for world peace  
can be effective in their efforts if they utter OM in groups regularly  
besides carrying out acts of goodwill in daily life.

This is the occult work for peace  
which has a better impact in the subtler planes  
than peace demonstrations.

May the goodwill worker do so regularly in groups.
